## Experience

### **FrontEnd Developer at AIR, Delhi, 7/2020**

I was one of the hires at startup AIR and worked there as a frontend developer. I worked with UI/UX to make sure designs are functional accessible and give intended experience.

### **Backend Developer Intern at ICWS, Chandigarh, 9/2020 – Present**

Responsible for optimization of the application for maximum speed and scalability, built API to store the data. Utilised various JS scripts to dynamically call the data.

## Education

**Guru Teg Bahadur Institute of Technology**, New Delhi, Delhi  
**B-Tech Information Technology**, 2018-2022

## Technical Skills

- Programming Technologies: **React, NodeJs, Mongo, JQuery, Java, JavaScript, Bootstrap, HTML/CSS**
- Operating system : **Window 10, Ubuntu**
- Version Control: **Git and GitHub**
- Visual Design: **Adobe Photoshop, Adobe Illustrator, Figma**

## Achievements/Hackathons

### **Top -10 in HackJNU, January 2020**

At this 24 hour hackathon contest, we presented our idea and made a prototype that helps beginners to better start with their journey of DS and Algo. We made basic Scan and Get Code in compiler, Game Of Code, Voice or ChatBot.

### **Top-5 in HackGTBIT2.0, January 2020**

In HackGTBIT we created an E-commerce website with 3D view. To provide a better user experience to the customers.

## Personal Web Projects

### Twitter Bot

Skills: **API access (including OAuth), error handling**

Generate random quotes, use a database of per-written tweets, timing, respond to other users' messages

**Full stack development on a video streaming website developed using aws(ec2, s3, cloudfront, rds)**

## Achievements and Accomplishments

- Speaker Hour – **Google Developer Group(GDG)** New Delhi Devfest'19.
- Scholarship Application Reviewer at **AnitaB.org** for Grass Hopper Celebration 2020(GHC 20).
- Marketing Head at **Girlsript Faridabad**.
- Part of the **Women Who Code Delhi** Team(WWCD) as a volunteer.
